Young, Thomas	Happy Return	Worcester	Brimscombe	32

Notes

Destinations recorded in the Stroudwater Navigation tonnage books only record the ports used by the boats. Typically these ports are only stages on voyages. Trips recorded to Brimscombe could be destined for transshipment to boats travelling along the Thames & Severn Canal towards London, Swindon, Oxford, etc. Boats recorded as coming from Worcester would have originated on the Birmingham Canal Network, whilst those from Stourport would have come from Cannock Chase, Stourbridge or further north. Cargoes to and from Bristol could be for any desination from around the world, or from the Keynsham or Somerset coal fields.
